Stakeholder responsibilities and liability limitation

I,Ali Akgunduz agree to be the Stakeholder for the project TrackMyDegree As the Stakeholder, I agree to sign off on completed user stories and meet, briefly, with the students at the end of every two week iteration to discuss the progress of the project (meetings can be online). I will also do a set of initial meetings to determine the core features and user stories. I am committed to the full term of this project, from September to the end of May.

Copyright and IP assignment must be agreed upon by the students and stakeholder prior to starting the project.

I agree that the project code and documentation will be hosted on a private GitHub repository.

NDAs are not required, but students can sign any NDA that you both agree on. For grading purposes the TA and Prof can only sign this NDA, which is approved by the university and is only for grading purposes. NDAs must be signed by September 30th, or the students will have to do a different project that does not require an NDA.

For liability purposes, the stakeholder will also include the following notice in the software license and is responsible for ensuring that no clause in the license contradicts this clause:

"THE SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT. IN NO EVENT SHALL THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF OR IN CONNECTION WITH THE SOFTWARE OR THE USE OR OTHER DEALINGS IN THE SOFTWARE."

Stakeholders name: Ali Akgunduz
